Chief Administrative Officer

CALIFORNIA CLEAN WATER, CLEAN AIR, SAFE NEIGHBORHOOD PARKS AND COASTAL PROTECTION BOND ACT OF 2002

On March 5, 2002 the California Clean Water, Clean Air, Safe Neighborhood Parks and Coastal Protection Bond Act (Proposition 40) will be on the statewide election ballot. If passed, Proposition 40 will provide \$2.6 billion statewide for projects and grants in a variety of categories. Los Angeles County should receive over \$60.4 million from per capita and earmarked allocations. The cities within the County will receive nearly \$121 million, and the Baldwin Hills, Santa Monica Mountains, and San Gabriel and Lower Los Angeles Rivers and Mountains Conservancies will each receive \$40 million. Attachment I contains the Proposition's funding distribution.

In addition to the funds specifically allocated, the Proposition provides \$765 million in competitive grants for:

 Urban and Special Needs Parks 	\$240 million
 Clean Beaches, Watershed Protection 	
and Water Quality	\$300 million
River Parkways	\$75 million
Air Quality	\$50 million
 Local Conservation Corps 	\$15 million
Agricultural Land Preservation	\$75 million
Urban Forestry Programs	\$10 million

The Proposition also provides \$230 million for appropriation by the Legislature (with an unspecified amount for grants) for acquisition, development and preservation of historical and cultural resources.

Annual California Land Conservation Conference

On January 28, 2002, the Trust for Public Land (TPL) and the California Coastal Conservancy are hosting a conference in Sacramento (see Attachment II which includes the notice and agenda), where Proposition 40 will be discussed by State Officials, including Assembly Speaker pro Tem, Fred Keeley and Secretary of Resources, Mary Nichols. The conference may provide a unique opportunity to learn how best to present projects and improve their chances for funding.

Submission of Projects

As March 5 is less than two months away, if you have not already done so, I am urging you begin developing a list of Proposition 40 eligible projects. Projects need to be well defined and contain good cost estimates. The State is likely to follow the guidelines used for Proposition 12, which required completion of environmental assessments (CEQA) prior to submission of applications for funding. Therefore, projects must be beyond the "wish list" stage, and they should have received the appropriate internal approvals.

If there are any questions regarding Proposition 40, please call Dean Smith, of my staff, at (213) 893-2086. Dean will be in contact with your offices to assist in coordinating countywide activities.
